Summary

Aspiring Computer Engineering graduate, equipped with **HTML5 mastery** and **CSS3 proficiency**. Possesses strong **problem-solving skills** and a passion for technology, committed to driving professional growth and delivering impactful results in the field. A strategic focus on mastering the **MERN stack** (MongoDB, Express, React, Node.js) for end-to-end development.

Skills

- Communication skills
- CSS3 proficiency
- Developing proficiency in Javascript
- Problem-solving
- Portable code writer
- Version Control
- HTML5 mastery

Education

B.E. in Computer Engineering, Savitribai Phule Pune University

07/2023 – 04/2027

I am currently pursuing a Bachelor of Engineering in Computer Engineering at SPPU. My academic focus includes software development and web technologies, with practical application of Core Java, HTML5, CSS, and Bootstrap, and I am also building a strong foundation in database management with MySQL.

Talegaon Varale

Maharashtra State Board of Secondary & Higher Secondary Education, Changu Kanha Thakur College

2023

Completed Higher Secondary Certificate (HSC) in the Science stream from Changu Kanha Thakur College. Built a strong academic foundation in Physics, Chemistry, and Mathematics

Panvel

Projects

Bank Management System

- **Tech Stack:** Java, MySQL, JDBC

Developed a robust console-based banking application using **Core Java** and **Object-Oriented Programming (OOP)** principles. Integrated the application with a **MySQL** database using **JDBC** to enable persistent data storage. Key features include secure user authentication, account creation, and real-time transaction processing (deposits, withdrawals, and balance inquiries).

Spotify-Web-Clone

- **Tech Stack:** HTML5, CSS3, Bootstrap

Designed a responsive replica of the Spotify web interface using **HTML5** and **CSS3**. utilized **Bootstrap** frameworks to ensure a consistent and mobile-friendly layout across different devices. The project focuses on clean UI design, custom styling, and grid-based layouts to mimic the professional look and feel of the original platform.

Premier Schools Exhibition Landing Page, *Assignment By SRV media*

Description:

- Developed a fully responsive event landing page using semantic HTML5 and custom CSS3, ensuring cross-browser compatibility without external frameworks.
- Implemented high-performance, CSS-only infinite scroll animations for dynamic image galleries and partner logos.
- Designed a modern user interface featuring glassmorphism effects on forms and optimized layouts for both mobile and desktop devices.

Tech Stack: HTML5, CSS3 (Flexbox, Grid, Keyframes), Media Queries, FontAwesome.

Portfolio Website

Description:-

Designed and developed this fully responsive personal portfolio with a Neon Glassmorphism theme. Features smooth scrolling, contact form integration (Web3Forms), and modern CSS animations.

Tech Stack :- HTML • CSS • JavaScript
